Dear Supervisor Gonzalez along with Director of the Department of Behavioral Health for County of San Bernardino Doctor Veronica Kelley:

What has happened here in my case is not a mistake on your parts. It's not an oversight. And it's not oops brain fart kind of moment.

And all aspects of this since I've returned to town in July of 2017 just over three years ago...

I have had a dysfunction of highest proportions of offense and insult.

Trying to get somebody of greatness in our leadership about Mental Health to acknowledge the fact that what I now know is the term gangstalking is prevalent in my case.

The Phenomenology of Group Stalking ('Gang-Stalking'): A Content Analysis of Subjective Experiences

Lorraine Sheridan, David V. James, and Jayden Roth

Additional article information

Abstract

Epidemiological data suggest that as many as 0.66% of adult women and 0.17% of adult men in the western world may suffer the subjective experience of being group-stalked ('gang stalked') at some point in their lives. Yet the gang stalking experience has been subject to little scientific study. This paper reports an attempt to elicit the core phenomena involved in gang-stalking by allowing them to emerge de novo through the qualitative analysis of accounts of individuals who describe being gang-stalked. Fifty descriptions of gang-stalking that satisfied study inclusion criteria were identified from the internet and subjected to content analysis. Twenty-four core phenomena were elicited, together with 11 principal sequelae of the experience of being gang-stalked. These were then divided into groups, producing a framework for the phenomena of the gang-stalking experience. The results were compared with frequencies of the same categories of experience then extracted from the original data of the only previous study on gang-stalking phenomena. Whilst the methodology of the current study was more rigorous, the core phenomena were similar in each. The current

study confirmed the seriousness of the sequelae of the gang-stalking experience. These support the need for further exploration of the phenomenon, for which this study forms a basis.

Keywords: phenomenology, stalking, gang-stalking, group stalking, prevalence, psychological sequelae

But every one of you that I've contacted through this process already know about this condition including supervisor Gonzalez.

Now you can hide behind some sort of veil of Secrets Shadows but I already know that's the truth.

We need to stop look and listen. What was started probably about 30 years ago from what I can gather has to be terminated.

I keep saying over and over and over again according to the position of another paper I hold the same position and I always have.

Are people morally responsible for conditions that are set of generations ago even if those are currently happening today? The answer is no except for when a person or human being becomes aware of the harm that is being done. For once that happens and that becomes a part of someone's awareness of the harm that is being done then they are morally responsible for the conditions of the past that are still affecting the present.

And that was placed in a document called Computing and Moral Responsibility as posted at Plato.Stanford.edu.

<http://community.gruwup.net/Computing-and-Moral-Responsibility/>

But still you will not come forward to have a discussion. Therefore you are morally responsible from the point in time that you know exactly who I am and what I'm representing and you still condone the past that has been put on to our present and you want to continue that into the future which is harming to the death of people harming conditions.

And that is an absolute fact.

You can't stay quiet and sit there and put a block in front of me and set of course that continues to deny what I have to say in this and then continue this conspiracy into our future it's not possible it's not morally right and I'm going to stop you somehow.

I'm using 911 text interface, they too suffering from the illness of this conspiracy and deceived me in the middle of the text conversation.

It would seem that there is a huge loss of wisdom on your all parts to actually follow the law. Something so bad on your parts that you cannot seem to rationalize something other than your own narrow simple-minded single direction view that condones something that kills people!!!#

More to it I have great need to find reprimands for everyone of you.

Whatever you believe I know what is the truth. And if you bother to actually listen to this post may sound strange reply with the mentioned video subject. They're watching us. There there is a truth it's an absolute truth there there. They were apparently provable when this whole thing started 30 years ago but it has served changes the equation that you are all operating under they are watching you they are watching me they are watching us.

I know I talk to them as perhaps our creator.

That would be the possible creator of our human life.

That may sound strange but it's true.

Who is Vance E. Kelley? (see attached Truthfinder report)

So according to the text that is on your own page it says referral to resources both Behavioral Health and non Behavioral Health. Here is the crisis people.

I don't think you get it I'm not signing up under the system that is destined to repeat a cycle of dysfunction to return a collapse time and time again.

How many times does it have to happen before I realized that is not going to be the course work to which I'm going to go again.

Ridiculous you people are ridiculous.

My 3rd attempt to obtain a responsive primary doctor in my healthcare and a referral to specialized care in HIV goes unaddressed to these issues to failure.

I'm not just going to sign up and carry on like everybody else and go on like it does not matter because it does matter because I'm not going to go through the rest of my life being gang stalked just to have a doctor in HIV healthcare.

The matter at the root cause (The Foundation) must be addressed.

Under this nonresponsive silence, it never can be said truthfully.

I'd rather die first.

I'd rather die first I'd rather die first I rather die first then to be subject to this conspiracy.

I'd rather die first.

To get HIV care I must sit down and shut the fuck up about the truth and then have uncontrolled gangstalking for the rest of my life????

Like that is some sort of sane choice for me when I know better. I know the truth and you all can't handle having a discussion with me because you know the truth too and you can't confess that you are a hater condones this activity for years that leads to people dying dead dying dead dead humans dead dead dead dead dead dead dead dead dead humans.

How many have died since you've known about this and still you won't speak up still you won't speak for any kind of rational common conscience.

Remaining guilty, silent, and still hold your position of job cannot remain.

Something has to give how about telling the truth and removing your silence.

Or step out of your job and put somebody else in your job that can speak the truth because they're not guilty.

Or perhaps you are guilty and you can reach over your guilt by speaking the real truth and stopping this conspiracy by informing the American people that you no longer condone this activity.

This activity no longer acceptable for you to consider valid. And you will stop anyone in your view from partaking in murder.

That is because you were an ethics manager after all right? Or was that a fraud?

You would rather kill people than to talk about the truth.

That goes for each in front of the actors that I have encountered for 3 years including Supervisor Josie Gonzalez.

You all would rather continue to kill people.

now tomorrow... the next day ... next week... next month. . next year.... Next decade...

kill people kill people kill people instead of telling the truth.

You must provide services to refer me to an actual HIV doctor that will not terminate services when I bring up the matter of gangstalking.

That's part 1.

Part 2 you must provide me a case manager again DOES NOT IMPROPERLY TERMINATE services when I bring up the subject matter of gangstalking.

Part 3 you must provide the housing resources that once again DOES NOT BECOME THE SUBJECT to being a target of gangstalking to collapse its tenancy. That will require to reattach my social services agency of Foothill Aids Project (<http://foothillaidproject.fuckeduphuman.net>)

Part 4. Paying it forward the truth into the community and stop the action of government-

sponsored hate condoning the activity of what is under the definition of the NIH documents National Institutes of Health called gangstalking.

Part 5 : fix the weighty truth that returns and rebuild All of My Relations back at least through Denver Colorado that has suffered for this conspiracy. Return my life back and this is a demand and not a request. Of all the actors involved I demand written apologies and Promises of commitment to our future United.

#StopGangStalking

That then goes out to resolve this going on affecting our greater society in this artificially maintained maladjusted cultures that is unamerican.

This is a conspiracy among the government to target individuals which I am one I'm a citizen of the United States of America under the attack of the country of its government agencies and this is a truth that is against the 8th Amendments that prevents the punitive function of this government's of cruel and unusual punishment.

This is what has and is happening here and there's absolutely no way for you to justify your silence.

I'm stepping to your mother or your father or whatever your brother from your Truthfinder report on your relatives and I'm going to introduce the subject. And then you Doctor Kelley are the most outrageous person to have the title of Ethics Manager and some one of your relatives have to slap you silly.

To reprimands you among your own relatives for these actions.

"Everyone Answers To Someone"

<http://fuckeduphuman.life/Doctor-Veronica-Kelley/>

Doesn't that look great? It's a great honor to place your self onto the cyberworld forever? Or at least until I die and maintain the file space? You can't remove it...

Without talking to me... Just going to leave that forever??? Cuz you can't have the courage to speak to me and to terminate a know force of conspiracy?

And so be it you're guilty of conspiracy and that places you unto your relatives and disgrace upon your family .

Open the forum and the discussion of #Mpatapo appropriately and do it immediately.

You're going to get embarrassed to all hell embarrassed Doctor Kelly and it's your fault not mine.

Because you're conflict avoidance at the very least pointing a fault but I know it's more than that and you're going to have to choose sides.

Starts with enforcing the rule pf order, rule of commons, rule of law, rule of my dignity and my life is valid and not trash to just discard away. That which throws me away also is discarding others in this same disregard, dishonesty undertaken, a conspiracy that kills people!!!

And remember as I said with now about 4 months since the official statement from the Pentagon about the Extra-Terrestrial visits of something that cannot be explained caught on video. The official line is they are there and they are now and they are official. And that is real not unreal and they are watching you Doctor Kelly extremely extremely vividly at your door.

Because of my domains being so named so profoundly obvious. I am sure for sure they have captured the identities and the realism of what I'm saying is the truth and that it is that extreme to which it is named that you place yourself into their view because they are watched because they are watching me they are watching us and I view them perhaps to actually talk to them.

i care and you don't - this is a realism upon this conspiracy that changes the dimension of what you should and should not condone or believe for sure and I know my domains are that

unique that they are watching you for they are watching me.

What the fuck do you think you're going to do? You're going to do something right for a change okay?

The future is for us to make United. And it is united we all stand or Divided We All Fall.
